Technical facts

Features

Sizes - nominal height	3755, 4055, 4355, 4555 mm
Sizes - free height	3300, 3600, 3900, 4100 mm
Sizes - nominal width	3600 mm
Sizes - nominal depth	770 mm, 1020 mm
Sizes - top bag extension	1000 mm, 1300 mm
Sizes - side bag extension	650 mm
Standard RAL colors	3002, 5010, 6005, 7016, 9002, 9006, 9007, 9010
Control unit	Switch control

Performance

Walls and roof	Insulated panel 42 mm RAL 3002, 5010, 6005, 7016, 9002, 9006, 9007, 9010
Front plate	Steel sheet painted with reinforcement angle in RAL 3002, 5010, 6005, 7016, 9002, 9006, 9007, 9010
Inside panel color	RAL 9002
Surface treatment	Hot galvanised and painted with polyester paint, which corresponds to environmental class 3
Front protection	Yellow polyethene plastic
Fabric quality	Top bag: PVC coated polyester fabric 500g/m ² , thickness 0.5 mm Side bag rear : made of PVC coated polyester fabric 600g/m ² , thickness 0.5 mm Side bag front: made of PVC coated polyester fabric 2500g/m ² , thickness 2 mm
Fan	230 V, 1-phase, 50 Hz, 250 W Noise niveau: 65 dBA in working position
Operating	Switch control included. Other controls available as option
Temperature range	-30° to +60°C

1. Description

1.1 Application

The handling of cooled or frozen food put high demands on the temperature chain. The ASSA ABLOY DS6070B inflatable dock shelter bags provides the optimal sealing of temperature controlled premises during the loading and unloading process. Contrary to other types of dock shelters, the vehicle does not push towards the shelter. Instead, the shelter is air inflated around the docked vehicle, providing complete sealing. The ASSA ABLOY DS6070B inflatable dock shelter bags is suitable for all vehicle sizes and its sealing capacity exceeds by far the standard normally required by the operators.

1.2 Mode of operation

The vehicle does not push towards the shelter. Instead the shelter is inflated around the docked vehicle, providing best possible sealing. During loading/unloading the vehicle moves up and down and the bags of the ASSA ABLOY DS6070B inflatable dock shelter bags automatically follows these movements, with constant pressure on the vehicle structure. In rest position the bags are held in place mechanically.

1.3 Overview

- 1) Insulated panels
- 2) Blower
- 3) Counter balance
- 4) Top bag
- 5) Side bag
- 6) Curtain strips
- 7) Steel guard

1.4 Standard

Nominal height	3755, 4055, 4355, 4555 mm	
Free height	3300, 3600, 3900, 4100 mm	
Nominal width	3600 mm	
Nominal depth	770 mm	
Top bag extension	1000 mm	
Side bag extension	650 mm	
Insulated panel	42 mm	
Operating	Switch control	
Standard color	Insulated panel, pre-coated	RAL 3002, 5010, 6005, 7016, 9002, 9006, 9007, 9010
	Front plate	RAL 3002, 5010, 6005, 7016, 9002, 9006, 9007, 9010
Steel guard	only for SIB	
Dock shelter is prepared for installation to wall or loadhouse.		

1.5 Options

Nominal depth	1020 mm with steel guard
Top bag extension	1300 mm
Front plate	Digit on front plate
Side bags	Wear shields
Color	Insulated panel, pre-coated RAL 1021, RAL 5003, RAL 8017, RAL 9005 Painted in special RAL color Front plate in special RAL color
Wall fixings	Concrete, sandwich, light concrete, loadhouse, cavity, insulated panel

1.5.1 Option wear shield

Extra layer of 3 mm PE curtain riveted to side bags to cover the lowest part left and right in the vehicle contact area. When the vehicle moves up and down during loading/unloading the side bags are protected against damages.

2. Specifications

2.1 Dimensions

Abb.	Dimension	Value (mm)
NB	Nominal width	3600 mm
NH	Nominal height	3755, 4055, 4355, 4555 mm
NT	Nominal depth	770 mm, 1020 mm
FH	Free height above level*	3300, 3600, 3900, 4100 mm**
HO	Top bag extension	1000 mm, 1300 mm
HS	Side bag extension	650 mm
MH	Installation height	Vehicle height + 500 mm
RH	Dock height	
VH	Vehicle height	

* depending on MH (installation height)

** maximum sizes

3. Construction

The ASSA ABLOY DS6070B inflatable dock shelter bags can be fitted directly to the wall or on a Load House and is available as a single module or multiple modules. The ASSA ABLOY DS6070B inflatable dock shelter bags consists of two side walls with bags (one side wall for multiple module), front protections and installation material. Roof with top bag, front plate, machinery, fan and installation brackets. The ASSA ABLOY DS6070B inflatable dock shelter bags is operated from a control panel and the supply contains the the complete dock shelter including necessary fixings. The ASSA ABLOY DS6070B inflatable dock shelter bags reaches from the top of the truck until a little under the vehicle bed.

3.1 Construction SIB

OK	Yard level
DH	Door height
DW	Door width
NH	Nominal height
RH	Dock height
LW	Clear width
HO	Top bag extension
HS	Side bag extension
ND	Nominal depth
NW	Nominal width
FH	max. free height above dock level (depending on MH)
MH	Installation height (Vehicle height + 500 mm)

1 Wall mounting profile*

2 Support bracket*

* belongs to the wall fixing

5. Service you can rely on

Gold

The ultimate protection

With full coverage, Gold Service enables you to plan and budget your expenses annually.

- Spare parts for emergency calls
- Labor and travel costs for emergency calls
- Replacement of components according to preventive maintenance schedule and to fulfill legislative and safety requirements

Silver

Added advantages

With cover for all service calls during business hours, Silver Service offers you peace of mind.

- Labor and travel costs for emergency calls
- Preventive maintenance

Bronze

Scheduled Service

With scheduled on site visits, Bronze Service means you know that your doors and docking systems will be regularly serviced and inspected.

- Preventive maintenance

Included in all packages

1-4 scheduled maintenance visits per year	24/7 priority service hotline and fast response	Safety, compliance and quality control checks	Documentation reports provided on site
---	---	---	--

Expert service you can rely on

A healthy business enjoys a steady flow of goods, services and people through its entrances every day. But heavy traffic puts entrances under pressure as every component works to keep them running.

ASSA ABLOY Entrance Systems offer the industry’s most complete, flexible service solutions. Because even something as robust and well-engineered as an ASSA ABLOY door or docking system needs to be serviced to stay in great working order.

Pro-active care packages

An ASSA ABLOY service agreement gives you service you can rely on. We have specialized local service technicians on call to take care of your service needs. Equipped with a wide range of spare parts and expertise, to keep your industrial doors and docking systems running.

With an ASSA ABLOY service agreement you can ensure reliable, safe and sustainable operations at every entrance under your agreement, including doors and docking systems, independent of brand.

ASSA ABLOY e-maintenance™ (optional add-on)

For an online overview of your entrance systems and history, add ASSA ABLOY e-maintenance™ to your service package for:

- Easy access to real-time data on all your doors
- Planning, order and service information
- Overview that helps you control lifecycle costs
